

Advancing laboratory diagnostics and the
science of patient care

BIOTAP Medical is a CAP-accredited, CLIA-certified high-complexity laboratory dedicated to providing healthcare providers the highest level of client services in the industry.

Pharmacogenetic (PGx) Testing

A complete personalized medicine program

- **Improves Health Outcomes**
 - Decrease medication failures
 - Decrease Adverse Drug Reaction (ADR) risks
 - Decrease polypharmacy burden
- **Identifies Who Should Be Tested**
 - Identifies high-risk patients as candidates for testing
- **Detects and Reconciles Drug-Gene and Drug-Drug Interaction Risks**
 - Provides safer alternative medication strategies
- **Provides Evidence-Based Interpretations**
 - Guideline-driven, actionable guidance on the safety and efficacy of over 300 common medications

Molecular Urinary Tract Infection (UTI) Testing

A better option to urine culture

- **Fast**
 - Test results available within 24 hours
- **Sensitive**
 - Avoids false-negative results commonly seen with cultures
- **Robust**
 - Simultaneous detection of:
 - 20 common uropathogens
 - 15 antibiotic resistance markers
- **Targeted**
 - The right antibiotic treatment more quickly
