

Which of Your Patients Can Benefit From Home Health?

Patients with a new onset or an exacerbation of a current or existing condition, or those with chronic conditions, can qualify for and benefit from home health. Home health services can include skilled assessments, education, monitoring and/or treatments.

DO YOU HAVE PATIENTS WHO HAVE ANY OF THE FOLLOWING?

- A new diagnosis or an exacerbation of an existing diagnosis
- Multiple comorbidities with poor symptom management
- New or changed medications or taking multiple medications
- Chronic pain or limited mobility
- Poor endurance or an inability to exercise
- Difficulty performing activities of daily living
- Recent falls or problems with balance
- Visual impairment
- Cognitive or memory issues
- Wounds or recent surgeries
- Changes in speech or swallowing difficulties
- Nutritional issues (over- or underweight)
- Recurrent urinary tract infections
- Non-adherence to prescribed treatments
- Missed appointments
- Prone to making after-hours office calls
- Experiencing a decline that makes living alone or with elderly spouse difficult
- Multiple emergency room visits
- Soon to be discharged or recently discharged from the hospital
- Two or more hospitalizations within the past year
- High risk for hospitalization
